

LEGEND

- 9 Potential Wetlands
- Local Wetland Inventory
 - [Symbol] PEM - Palustrine Emergent
 - [Symbol] PFO - Palustrine Forested
 - [Symbol] PSS - Palustrine Scrub-Shrub
- National Wetland Inventory
 - [Symbol] PEM1A - Palustrine, Emergent, Persistent, Temporarily Flooded
 - [Symbol] PUBKHx - Palustrine, Unconsolidated Bottom, Artificially Flooded, Permanently Flooded, Excavated
 - [Symbol] PUSKCx - Palustrine, Unconsolidated Shore, Artificially Flooded, Seasonally Flooded, Excavated
 - [Symbol] Hydric Soil
- [Symbol] Jurisdictional Boundary
- [Symbol] Scan Area Boundary
- [Symbol] Interstate 5
- [Symbol] State Highways
- [Symbol] Freeway Ramps
- [Symbol] Railroad
- [Symbol] Local Roads

N

0 1,000 2,000 Feet

Data Sources: ODOT, City of Salem, CH2M Hill, Marion County, ESRI, Inc., Local Wetlands Inventory of the City of Salem, National Wetlands Inventory National Resources Conservation Service.

Note: Wetlands are represented from three different sources. The Local Wetland Inventory superseded other sources, when available within the city limits. The National Wetlands Inventory was used outside the city limits. Hydric soil from the National Resources Conservation Service was used where both LWI and NWI were not present

Printed June 2008
